

Quarterly Altitude Check

Ninety minutes, four questions, on the calendar four times a year. Answer in writing and keep the answers, drift shows up in the quarter-over-quarter comparison.

IS THE WORK STILL CONNECTED TO THE GOAL?

Trace it explicitly. "It was in January" is not an answer.

WHAT CHANGED IN THE CONTEXT?

Market, org, priorities, people. Ten minutes of honest listing.

WHICH ASSUMPTIONS EXPIRED?

The plan encoded beliefs. Which are no longer true?

WHAT WOULD WE NOT START TODAY?

The hardest question, and the one that pays for the ritual.

AT MOST THREE CHANGES

The check is a rudder, not a rebuild. Small corrections, quarterly, compound.
