

Drain Signals Self-Check

Learn your own signature first, then read teammates against their profiles. Name findings as structure, never as character.

AVOIDANCE WITH A PATTERN

☐ One category of task perpetually re-prioritized while everything else moves

QUALITY INVERSION

☐ Errors appearing specifically in detail, follow-through, or framing, whichever matches the tertiary

MEETING-TYPE IRRITABILITY

☐ Fine in some rooms, visibly depleted in others, the room type names the drain

DISPROPORTIONATE RECOVERY

☐ A small tertiary task costing an afternoon of flatness afterward

LANGUAGE SHIFTS

☐ "I just need to push through", said about the same work, repeatedly

ROUTE THE FINDING

☐ Placement problem → Energy Budget Planner

☐ Volume problem → Triage Decision Tree

☐ Trade candidate → Team Trade Board
