

Team Energy Audit

Quarterly, ninety minutes, facilitated, with profiles on the table. The audit hunts sustained and structural, not occasional and normal.

THE MAP

Each person: rough percentage of the quarter in WHY, WHAT, and HOW work, against their profile.

FLAGS

Tertiary share above roughly a quarter of the time, sustained. Marked without judgment.

CAUSES, NAMED AS STRUCTURE

Role shape, coverage gap, inherited task, habit. The gap tax: who keeps paying to cover the missing orientation?

ROUTES

Trades to the Board, placement to the Planner, role-shape findings upward, in writing, with the map attached.

TREND

Against last quarter. Three quarters of one rising line is a role redesign waiting to be scheduled.
