

So-What Translator

Name the specific reader first. Force the completion for every section, no exceptions. Lead with meaning, keep the detail as the appendix.

THE READER

A title and a current worry. "Which means that" has no answer without a who.

SECTION → WHICH MEANS THAT...

Every major finding or component, each completed honestly in one line for this reader.

THE WINNER

Which completion changes a decision the reader actually faces? It becomes the opening line.

THE ORPHANS

Sections with no honest completion. Candidates for the appendix, or the cut.
