

Assumption Audit

Run against the finished plan, a day after planning. Write every belief, however obvious, "obviously" is the costume assumptions wear.

WHAT MUST BE TRUE FOR THIS PLAN TO WORK?

List everything, obvious included.

WHICH BELIEFS ARE INHERITED, NOT TESTED?

From a predecessor, a template, a habit.

CONFIDENCE × CONSEQUENCE

Rate each belief. High-consequence, low-confidence items are the audit's product.

TEST OR ACCEPT, IN WRITING

Cheapest test for the risky ones, explicit acceptance for the rest. Silent assumptions are the only forbidden kind.
