

Good-Enough Threshold

Fill in before starting, agree it with the receiver, post it visibly. Criteria met plus date arrived equals released.

WHAT MUST BE TRUE TO SHIP

Three to five checkable criteria. The floor, agreed up front.

WHAT "BETTER" WOULD ADD

Name the marginal value of another week, honestly.

WHAT "BETTER" WOULD COST

The delay, the invisibility, the work not started.

WHO ACCEPTS IT

The named receiver whose yes means shipped.

THE SHIP DATE

A real date. Overriding it later is a scope change, made out loud.

VERSION-TWO PARKING LOT

Improvements beyond the threshold go here, informed by real feedback.
