

Detail Sprint Planner

Two recurring sprints a week, at peak energy, one category per sprint. Hard stop at the timer, recovery in primary work immediately after.

The method: Batch similar detail together. Place both sprints at peak-energy windows. Box each with a hard timer. Recover in primary-orientation work right after.

WEEK OF	SPRINT 1 (DAY, TIME, CATEGORY)	SPRINT 2 (DAY, TIME, CATEGORY)	RECOVERY BOOKED?	ITEMS ROLLED FORWARD
