

Review Request Memo

Five lines, built to copy straight into an email or a message. Vague requests get vague reviews.

WHAT THIS IS

One sentence on the deliverable and who it is for.

WHAT STAGE IT'S AT

Draft, near-final, or shipping tomorrow. This calibrates depth.

WHAT KIND OF REVIEW

Completeness, edge cases, feasibility, or numbers. Pick one or two.

WHERE TO PUSH

The area you are least sure of. Aim their energy.

WHEN IT'S NEEDED

A real deadline with runway to act on findings.

THE RECIPROCITY

What you will carry back for them: purpose framing, momentum help, a review in your primary.

Reviewer Roster & Reciprocity Tracker

Built once, consulted before every future ask. The pairing works because it is tracked, not remembered.
