

Decision Contract

Set with a witness, before gathering starts. Signed once, per decision.

WITNESSED, NOT JUST DECIDED

The decision

One sentence. What exactly is being decided?

The date

Proportional to the stakes, not to the interestingness of the analysis.

Good enough means

What information would genuinely change the answer? Only that gets gathered.

Extension (once, out loud)

If genuinely needed: the new date and the specific information that justifies it.

DECIDER

WITNESS

Persistent across decisions. Reviewed quarterly: did the ones that got extended actually improve with time?
