

# Progress Broadcast Template

Four lines, five minutes, same time every week, sent as an email or a chat message. Never skip a quiet week, and use Blocked without apology.

## SHIPPED

What went out the door. "Nothing this week, deep in X, on track for the 14th" is a strong update.

## MOVING

The active work and its current state, one line each.

## BLOCKED

What is stuck and what you need. The highest-leverage line you have.

## NEXT

The one thing that moves first next week.

## SEND RITUAL

Day, time, and channel, fixed. The reliability is most of the message.
