

Facilitator Script

Run after planning, before commitment. Enforce the silent writing round, spoken-first sessions converge on the safe answers.

"It is twelve months out. This failed completely."

Said as fact, not hypothesis. Pause. Hand out the silent round sheet now.

"Ten minutes. Everyone writes independently, in silence."

Enforce it. Specifics stay specific: "the integration fails in week three" is a finding, "bad luck" is not.

"Now read your reasons aloud, one at a time. No discussion yet."

Cluster the reasons as they're read. The clusters are the risk map.

"Rank the top three, by likelihood times damage."

"One named owner and one concrete counter per top risk, before we leave this room."

Added to the plan before commitment, not after.

One per participant. No prompts beyond the declaration, over-structuring this page causes convergence on safe answers.

Ten minutes. Write independently. Be specific.

Risk Map & Counters

Built together after the silent round. Kept as the artifact attached to the plan.

CLUSTER	LIKELIHOOD (1-5)	DAMAGE (1-5)	RANK	OWNER	COUNTER
