

The Friction Forecast

Map live frictions to the signatures, rename them out loud, install the design fix. Structure resolves what conversation keeps re-fighting.

THE FRICTION SIGNATURE CATALOG

The vision handoff stall
WHY hands WHAT-shaped goals to HOW with the mechanism missing. Say: "this is the vision handoff stall." Fix: the Handoff Contract, Tool 42.

Pace versus depth
WHAT reads HOW thoroughness as resistance, HOW reads pace as recklessness. Say: "this is pace versus depth." Fix: agreed thresholds, Tool 11.

The reopened decision
WHY revisits what WHAT considered closed. Say: "this is the reopened decision." Fix: the Decision Deadline log, Tool 13.

Precision as obstruction
The edge-case question lands as negativity at the moment of momentum. Say: "this is precision as obstruction." Fix: the scheduled precision pass, Tool 35.
